

## Serving and Burdened Ones Perfecting Training - March 10, 2012

We would once again like to warmly invite you to join us for a one-day perfecting training on March 10, 2012, for all of the parents, serving ones, college students and burdened saints for the junior high and high school young people in the churches in Southern California. **We would especially invite the parents of the young people to come and join us for this strategic time.** We are fully burdened that the Lord could continue to move in the churches among us in an organic way by strengthening our coordination to raise up the second generation so that they can be the young men who offer themselves willingly in the day of His warfare and be to Him the dew from the womb of the dawn for His satisfaction (Ps. 110:3) For this, we need our vision strengthened to see the vital and active role that all of us play in fostering the next generation to be vessels useful to the Master through our personal contact, unceasing prayer, proper patterns and perfecting.

Towards this end, we have recently been impressed between the two linked matters from our brother Lee's ministry concerning the "emphasis of a genuine work with the young people" and the "focal point" of our work with the young people. The emphasis of a genuine work with the young people is personal contact and our contact with them should bring them into the "focal point" of our work with the young people which is to bring them into working with us" (Shepherding the Church and Perfecting the Young People, Ch. 7). This burden includes, particularly, a normal personal and affectionate relationship with the Lord, becoming "seeds of the gospel" on their campuses, building them up to be the best material with the highest humanity, and being vital members who participate in a normal, organic, and proper function in the church life where they are. We fully realize how much we need perfecting in how we serve with the young people to bring them into their function and to help put the work into their hands so they feel the burden and responsibility of the work.

Thus, our earnest desire is to seek His leading in how to care for this generation so they can be perfected in this age to bear the burden of the Lord's recovery to meet His need and satisfy His heart both intrinsically and in their outward living. May we all cooperate in this burden to pray and shepherd the young people with this view.
