

Church Administration Training, Chennai

On April 1-2nd, 2017, Church Administration Training was held at Chennai, Tamil Nadu, for responsible brothers from Chennai, Hyderabad, New Delhi, Poondicherry, Tuticurin and Trivandrum. There were altogether about 60 brothers came together for this time of training, including two brothers from the oversea. The General Subject of this training was “Strengthening of the Corporate Vessel for the Building up of the Church”.

In the first message, the burden on “Serving with a Vision and according to Revelation” is released, that we must serve God with the heavenly vision and according to His divine revelation for the building up of the churches; such a service according to revelation is a service from God resulting from a priestly service to Him. In the second message, as the elders and responsible ones taking care of the churches, we must know the Body and keep the principles of the Body. In the third message, as elders and the responsible ones, we must honor Christ as the unique Head of the Body by holding Him as the Head and being limited by the other members, not going beyond our measure. The last two messages presented the burden of practicing the one according by much and thorough prayers and the need for many serving ones in the church to minister life for the building up of the church.

God intends for the church to manifest the life of Christ; hence, the church must be full of life, and our service in the church must minister life.

Please pray that the Lord gain and strengthen the corporate vessel among a group of brothers in order to contain the Lord’s blessing for the sake His testimony in these major cities in India.

College Students’ Training, New Delhi

On April 14-16, we had a Young People and College Students’ Training at New Delhi. There were 75 saints who attended this training. We spent these 3 days to enter into chapter one of book of Ezekiel. The main burden was not only to help the younger ones to be more familiar with the facts of word, but they can also get into the reality of the word.

During these three days we emphasized three items:

1.) Every morning we had the practice of morning revival. By calling on the name of the Lord and by pray reading the word of God, we can be genuine revived in the morning. Through speaking the word of God, we also can experience the blowing of the wind from

God. We also encouraged them and helped them to form into small groups so that they can have the practice of morning revival with their companions everyday even after training.

2.) We helped them to exercise to have an intimate and affectionate relationship with the Lord by personal prayer. When we are spending time with the Lord in our personal prayer, surely we will experience the stormy wind, overshadowing cloud, and burning fire. The more we experience these items, the more we will have the electrum glowing within us. We encouraged them to continue this kind of personal prayer with the Lord even after the training. This kind of living before the Lord is the root of our Christian life.

3.) We helped them to memorize the verses from chapter one of the book of Ezekiel. This helps us to be more familiar with the fact in the Bible. At the end of the training, everyone participated in the written test of memorizing all 28 verses in this chapter. There were 17 students who passed the test and received the reward for their encouragement. That was an encouragement both to them and to the serving ones for this training.

May the Lord bless all these young ones and may they maintain all these life practices in their daily living before the Lord. Through such an exercise they can be prepared to become the pillars in the church, the useful vessels prepared for the Lord and His Body!
