

Dear Brothers,

We are writing this report to update all the saints and the churches in the Lord's recovery of what the Lord has been doing among us in Ethiopia in His move. Since the ITERO last year in Addis Ababa in 2018, the Lord has opened many doors in the universities in Ethiopia. In December 2018 we were invited to speak to a group of about 50 seeking students in the southwest. This opened a way for many students in other universities to hear the word. As a result of such developments we held a one-week training for the students and we had 500 students in two rounds during the term break.

Those who came to these trainings were so touched by the truth and the testimony that when they went back to their respective campuses they began to share the materials and the messages to their friends. Since then we have been going to these various campuses to visit the groups of students who are open. Many of these students expressed their desire to come for a longer time of training during the summer.

After much prayer and consideration we opened up the registration for these ones to apply for the training in the summer. We asked the coordinating students to carefully select and send us the names of those we are serious and genuinely seeking. The applications came from over 25 universities, and the number of those who have registered is 2300 (we were forced to close the registration due to the high numbers). All these students are so eager and full of anticipation. They are ready to pay any price to come despite the false accusations and slanderous talk they hear against us.

For practical purposes, we are considering to divide this large number into three different groups and hold the training in three different times and places (one-week-long training for each group), with two in July and one in early August. From our experience with the 500 in the winter and our current assessment, the average cost of carrying this out is USD 105.00 per person for one week (an estimated 241,500 USD for all the 2300 students).

As this is a Body matter, we present it to the churches for their prayer and support. We look to the Lord for His leading, wisdom, and supply to fully gain this group of young people for His testimony and advancement in Africa.

We remain open to the Lord's leading and fellowship in the Body.

In Christ,

The brothers in Addis Ababa
